

DAYCARE AT WAGLY

Before You Come

- Make a reservation! We want to ensure that your dog has their spot reserved. Especially during the holidays, we will fill up so the sooner you can reserve those dates the better!
- Schedule a temperament evaluation.
 - Duration: 20-30 minutes
 - While you are completing the paperwork your dog will spend time with the team to determine if your dog will be a good fit for group play.
- Vaccines required: DHPP (Distemper/parvo), Rabies, Bordatella, & Influenza
 - Please bring proof that they are current. If overdue, we can get your dog updated at Wagly
- Negative fecal test within the last 12 months.
 - We can collect a sample at Wagly if your pet is not current.
- If your pet is on any medications or has a preexisting medical condition, please bring copies of your previous medical records (if they are not already part of Wagly's medical system).

At Check In

Bring your dog(s) in on leash and sign them in on the check in clipboard. Confirm pick up time and check off any add-ons for the day. We will take your dog to daycare and you are on your way!

After Daycare

Expect your dog to be exhausted! They will often be thirsty and hungry. We always have fresh water available and will help encourage them to eat but they often do not care to drink or eat while playing with their friends.
