ssh:
===============
ssh -i "doelsoft.pem" ubuntu@ec2-13-57-247-189.us-west-1.compute.amazonaws.com

urls
==================
http://apps.360lsp.com/
http://www.360lsp.com/

PHP MYADMIN
==================
http://www.360lsp.com/phpmyadmin/index.php
usernam: lsp
password: RFVbgt1@

============
we have shell1.sh and shell2.sh files in opt directory after uploading the jar we need to execute both the scripts

jar deployment
==================

login to the server
sh shell1.sh
sh shell2.sh LspService-v52.jar

Angular Deployment
==============
cd 360/
rm -rf src
wget http://www.snippettechnologies.com/demo/360lsp/admin/10-02-2021-src.zip (url of the zip)
unzip 10-02-2021-src.zip
netstat -anp|grep 4200
kill -9 (processid of 4200)
sudo nohup ng serve --prod --host 0.0.0.0 --disableHostCheck true > /home/ubuntu/360logs.log 2>&1 &
tail -f /home/ubuntu/360logs.log

Webiste Deployment
=========================
cd /var/www/html
wget urlof the webiste code
unzip url.zip
